

**NATAE**  
North African Transition  
to AgroEcology

NATAE aims to foster agroecological transition in North Africa, bringing together a multidisciplinary and multi-actor consortium from around the Mediterranean, that will identify optimal combinations of agroecological practices and develop a replicable methodology to design locally-tailored strategies for agroecological transitions.

## Objectives

### To Comprehend

- To identify promising agroecological practices combinations
- To analyze stakeholders' knowledge and perceptions on agroecology

### To Enlarge

- To broaden agroecological value chains
- To strengthen market access strategies for small producers and to enhance consumers' demand for agroecological food products

### To Network

- To set up a Mediterranean multi-actor network on agroecology, fostering knowledge exchange across different communities

### To Empower

- To empower key stakeholders in charge of policy elaboration and higher education to foster agroecological transition

### To Assess

- To measure the qualitative and quantitative impacts of agroecological strategies for different farming systems
- To identify levers and constraints for the AEP diffusion and conditions, means and tools to support agroecological transitions
