

Objectives

To Comprehend

- To identify promising agroecological practices combinations
- To analyze stakeholders' knowledge and perceptions on agroecology

To Enlarge

- To broaden agroecological value chains
- To strengthen market access strategies for small producers and to enhance consumers' demand for agroecological food products

To Network

 To set up a Mediterranean multi-actor network on agroecology, fostering knowledge exchange across different communities

To Empower

 To empower key stakeholders in charge of policy elaboration and higher education to foster agroecological transition

To Assess

- To measure the qualitative and quantitative impacts of agroecological strategies for different farming systems
- To identify levers and constraints for the AEP diffusion and determine conditions, means, and tools that support agroecological transitions
